Overview

This administration guide contains information and best practices on how to set up and support Desire2Learn 2GO 1.2.0. It is intended for system administrators and technical staff.

System requirements

To deploy Desire2Learn 2GO users must download the install the application on their BlackBerry® devices from <http://www.desire2learn.com/2go/mobile>.

Supported BlackBerry® devices

Desire2Learn 2GO works with the following versions of the BlackBerry® OS and BlackBerry® devices:

- BlackBerry® OS v4.2 Series:
 - BlackBerry® 7130e
 - BlackBerry® Pearl™ 8100
 - BlackBerry® Curve™ 8300
 - BlackBerry® Curve™ 8310
 - BlackBerry® 8700C, 8700G, 8700R
 - BlackBerry® 8703E
 - BlackBerry® 8707G
 - BlackBerry® 8800
- BlackBerry® OS v4.3 Series:
 - BlackBerry® Pearl™ 8110
 - BlackBerry® Pearl™ 8120
 - BlackBerry® Pearl™ 8130
- BlackBerry® OS v4.5 Series:
 - BlackBerry® Curve™ 8320
 - BlackBerry® Curve™ 8330
 - BlackBerry® 8700C, 8700G, 8700R

- BlackBerry® 8703E
- BlackBerry® 8800
- BlackBerry® 8820
- BlackBerry® 8830
- BlackBerry® OS v4.6 Series:
 - BlackBerry® Pearl Flip™ 8220
 - BlackBerry® Curve™ 8350i
 - BlackBerry® Curve™ 8900
 - BlackBerry® Bold™ 9000

Desire2Learn 2GO requires the Desire2Learn Integration Pack 1.0.1 for Mobile Solutions to be installed on the server.

Compatibility

Desire2Learn 2GO 1.2.0 is compatible with the Desire2Learn Integration Pack 1.0.1 for Mobile Solutions.

HTTPS (SSL) requirements

Desire2Learn 2GO only sends login credentials to the Learning Environment over HTTPS (SSL). If the corresponding service on the Learning Environment is not SSL enabled, Desire2Learn 2GO cannot authenticate into the server and cannot download any information.

DOME Configuration Variables

d2l.Settings.ORG_HAS_CONTACTINFO affects whether users' devices can retrieve contact information. If the **Default Value** is off, users' devices cannot retrieve contact information regardless of their security settings.
